

To whom it may concern,

My name is John Agnello. I am a producer/engineer, who has been making music for almost 40 years. My website, www.johnagnello.com will have a list of my credits, new and old.

Nolan has worked with me in recording studios on and off over the last 4 years. I've seen him grow into fine assistant and attentive runner/intern. He is a positive force in sessions. Very attentive and a good listener. He pays attention and can read the room very well. Unlike many kids I have worked with, he doesn't spend a lot of time on his phone. And he is very good at knowing how to help.

Whether it is running for food or setting up mics or trying to track down and solve problems, he is very helpful. And he is good at keeping the vibe in the room positive.

He would be a great addition to any studio and team if needed. I wish him the best of luck. You will be very happy he is on your team. I would be happy to talk more about him if need be.

Yours truly,

John Agnello
